

CCPS Elementary World Languages Master Content-Related Vocabulary List: Mandarin Chinese

The vocabulary in this list is to be both receptive and productive; that is to say students need to be able to understand/ respond to and reproduce the words. These words are to be recycled and spiraled through all four themes at each grade level.

The CCPS world languages elementary program is modeled on the Fairfax County Public Schools (FCPS), but there are some differences.

One important difference between the CCPS list and the FCPS list is that we have additional enrichment vocabulary for grades 3-5. The other is that we don't teach the themes in the same scope and sequence.

Important to Remember:

- ☀ **This is not the only vocabulary the teacher and students will use, but it is the only vocabulary for which the students will be held responsible at the end of 3rd and 5th grade.**
- ☀ **Additional “teacher” vocabulary is not included in this list.**
- ☀ **Students in k-2 may be exposed to the 3-5 vocabulary as well, but assessments should focus on communication of these words.**
- ☀ **Assessments are limited to this vocabulary**
